

SmartTracTM

Radiant Panel Solution

Radiant, the Smart Way.

- Deliver quiet, even, comfortable heat
- Configure for any space
- Fast and easy installation
- 80% lighter than thin slab
- Works with any floor covering
- Designed for 3/8" PEX/PERT tubing

SmartTrac[™]
Radiant Panel Solution

SmartTrac[™] works with Watts Radiant's
RadiantPERT[™] and RadiantPEX+[™] Tubing.

SmartTrac[™] is a non-structural, modular panel system, designed to simplify radiant heating and cooling installations in subfloor, wall and ceiling applications.

Easy to configure and quick to install, SmartTrac[™] is a flexible solution for any new construction or remodeling project.

RadiantPERT[™] **RadiantPEX+**[™]
Polyethylene Raised Temperature Tubing with Oxygen Barrier Cross-linked Polyethylene Tubing w/EVOH Barrier
